

EDUCATION

Sri Eshwar College of Engineering	BTECH(AI&DS)	8.2	2023-2027
Forest Hill Academy Matric.Hr.Sec School	SSLC	PASS	2020-2021
Forest Hill Academy Matric.Hr.Sec School	HSC	88.17	2022-2023

INTERNSHIP

MERN Stack Developer Intern | G-Zoft Tech Solutions | 2025

Completed a Full Stack Development internship using the MERN stack (MongoDB, Express.js, React.js, Node.js). Developed a Quiz Application featuring secure login, authentication, and RESTful APIs.

Data Engineering & Generative AI | 2025

Gained exposure to ETL processes, data preprocessing, and transformation. Explored Generative AI, LLMs, prompt engineering concepts. Applied AI ,data workflow fundamentals to intelligent application development.

PROJECTS

AI-BASED INTELLIGENT SARCASM DETECTION SYSTEM | 2026

Developed an AI-powered system to detect sarcasm in news headlines using NLP and Machine Learning. Implemented TF-IDF and Logistic Regression for accurate sarcasm classification and prediction. Integrated Explainable AI techniques to provide reasoning based on irony, exaggeration, and tone analysis.

APPOINTMENT MANAGEMENT SYSTEM | 2025

Developed a backend-based appointment scheduling system for efficient booking and management. Built RESTful APIs using Spring Boot, JPA/Hibernate, and MySQL for seamless data operations. Enabled secure validation, real-time appointment handling, and scalable system performance.

EXPENSE MONITORING AND BUDGET PREDICTION SYSTEM | 2024

Developed an intelligent expense management application to track, categorize, and analyze spending patterns. Implemented data analytics and visualization techniques for budget forecasting and trend identification. Utilized Python, SQLite, Matplotlib, and Seaborn for efficient data processing and reporting.

CERTIFICATIONS

Linguaskill Business	<u>Cambridge</u>	2026
Networking Basics	<u>Cisco</u>	2025
AWS Academy Graduate - Cloud Foundations - Training Badge	<u>AWS</u>	2025
Certification of in Generative AI	<u>GUVI</u>	2024
Mastering in Data structures & Algorithms Using C	<u>Udemy</u>	2023

PROGRAMMING ACCOMPLISHMENTS

LEETCODE - Solved 250+ problems in Data Structures, Algorithms, and competitive programming.

HACKERRANK -Achieved Silver Badge in C Programming through coding challenges and problem-solving.

SKILLRACK - Solved 500+ programming and logical reasoning challenges across multiple domains.

SKILLS

Languages & Core Skills: C, C++, Java, Python, JavaScript | AI, ML, Data Science, NLP, SQL, OOP, DSA.

Technologies & Tools: React.js, Node.js, Spring Boot, MySQL, MongoDB | Git, GitHub, Postman, Tableau, Power BI.
